

Automate Human Professional Translation of Your Articles

- Integrates with Salesforce Service Cloud[®]
- Translates your article content to increase CSAT scores and reduce costs
- Automates the article translation process with a click of a button
- Automatically localizes embedded links
- Supports more than 150 languages
- Saves money and cuts time-to-market
- Incorporates glossaries so approved translations of product names and tricky terminology are adhered to
- Remembers and reuses previous translations to reduce cost, improve quality, ensure consistency and minimize turn-around time

“Language I/O has both accelerated and simplified our translation processes. We can export content to be translated and import it back without any manual work on our side. Language I/O has made our organization more efficient, has reduced our time to market and has already saved us tens of thousands of dollars.”

 SurveyMonkey

Embeds into Salesforce workflows.
